*Genuine American Alligator*

# Unsurpassed Quality

Our Genuine American Alligator skin is the **crown jewel** of all the exotic skins.

It is the most:

rare,
in-demand,
supple,
soft,
boneless and
regulated skin in the world.

All other crocodiles (Salt-Water, Nile, Caiman) are:

cheap, plentiful, rough, polluted, unregulated and
violate numerous environmental laws.

Anybody can get:
gold, silver, diamonds, rubies, jewels, etc.

Nobody can get
Genuine American Alligator!

*rare*

*legal*

Our MADE IN USA military veterans,
marry our delicate American Alligator skin,
onto the strong, natural backing of our
**full-grain** American cow,
thus ensuring long-lasting elegance.

We never use:

"genuine leather" nor, "bridle leather" nor, "calf-leather" backing
as these terms really mean:

rat/cat/dog/pig skin,
imported from China.

The European Union imports 99% MADE IN CHINA products,
finishes them 1% in Chinese sweatshops located throughout ITALY/EU,
and then legally sells the product as MADE IN ITALY/EU!

In stark contrast, every aspect of our luxury items are all:
farmed, raised, tanned, legalized and made in the USA by military veterans,
so customer never has to wonder what it going on.

*capable*

*luxurious*

# Humane Conservation

It is against the law to kill American Alligators for their skin.

So instead, it takes us 5 years to farm our own American Alligators from egg to 1,200 pound adult.

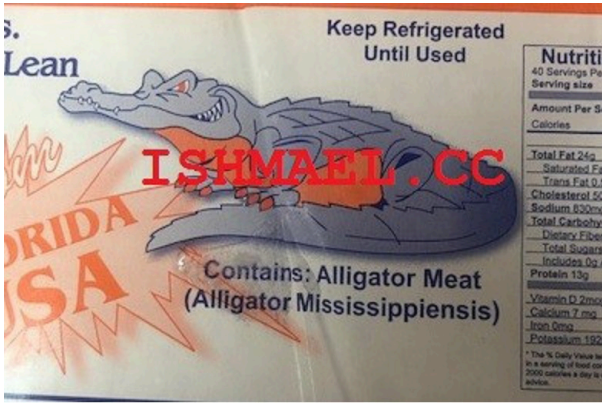

Afterwards, they are humanely processed into delicious: meat, ribs, burgers and nuggets.

The more of our luxury items you purchase... the more:

nutritious,
lawful,
organic food
we can feed the world with.
